Why work at Omni Design?

We have a relaxed, open work environment with a multicultural team. We give people certain freedom and expect responsibility

About Omni Design

Omni Design Inc. is an AE (architecture, civil engineering and surveying) firm based in San Luis Obispo, CA with over 40 years in business. We pride ourselves on providing our clients with the most complete and comprehensive design experience possible. We strive to form meaningful relationships with clients and colleagues to continually promote collaborative opportunities.

Omni's 40+ years of experience can be translated to hundreds of successful projects of varying types. Our reputation and team of dedicated individuals are our biggest asset, and it is what we build our future upon.

Typical projects at Omni working on at any given time include office buildings, wineries, laboratory facilities, new and renovated residences, restaurants, markets, telecomm antennas, industrial buildings, roadway design, bike paths, subdivision maps, public improvement plans, among many others.
