

WE'RE HIRING

full-time engineers

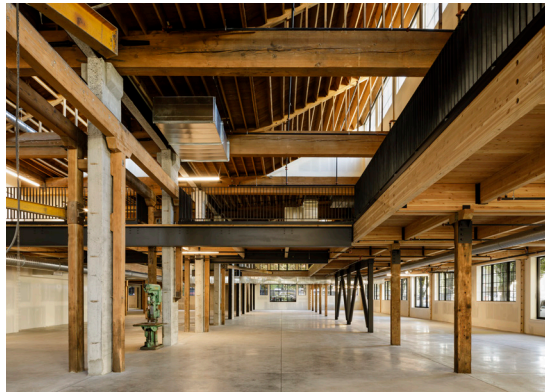

catena consulting engineers • Portland, OR

We're looking for:

- highly qualified, aspiring structural engineers from **Cal Poly's Civil & Environmental Engineering Program** for full-time employment
- motivated individuals that desire to learn, grow, be challenged, and contribute to the continued success of our high-performance team

We offer:

- competitive salary and benefits
- the personal environment of a small firm with the opportunity to work on a variety of projects, big and small, with all types of structural materials
- incentive bonuses as part of the compensation package
- an atmosphere that fosters teamwork, impromptu learning sessions, and optimum communication

"The most beneficial part of working at catena as a professional entering the engineering field is getting exposure to a large variety of project types, building materials, and all phases of a project. This has fostered and grown my engineering problem solving skills as each day and project is different and presents new challenges."

-Stefanie Chamorro,
Engineer

Candidates must be authorized to work in the U.S. without the need for sponsorship now or in the future. Catena is an Equal Opportunity Employer/Affirmative Action Employer and participates in the E-Verify Program.
