

Engineer-In-Training

BPR Consulting Group (www.bpr-grp.com) is seeking a motivated and detail-oriented certified **Engineer-in-Training (EIT)** to join our growing company in the **Roseville, CA** area.

Full-time / on-site opportunities are available for qualified candidates.

Come Grow with Us!

BPR Consulting Group is growing and so are our advancement opportunities. We are a results-oriented company and measure success through outcomes. Integrity and trust are paramount to our success. We focus on doing the right things for our clients and staff. We are committed to working in a professional and collaborative manner to efficiently meet the needs of our clients.

About the Position:

This entry-level position involves:

- Reviewing engineering drawings and calculations for code compliance prior to permit issuance.
- Performing independent analysis, as necessary, to verify the adequacy of designs provided.
- Writing comments and notes where deficiencies are observed.
- Engaging in continuous learning about building code requirements.

Plan checking training will be provided to ensure you have the skills needed for this role.

Essential Duties:

The essential duties noted below are not intended to be an exhaustive list of all responsibilities, functions, and skills. They are intended to be a summary of key job responsibilities and duties.

- Assist in reviewing engineering plans and calculations for compliance with building codes.
- Conduct independent analyses to verify design adequacy.
- Document and communicate any observed deficiencies in engineering plans.
- Participate in ongoing learning to stay current with building code changes and best practices.
- Perform other related duties and responsibilities as required.
- Perform all work consistent with BPR's and Clients policies and procedures.
- Provide all services in an efficient, proactive, and client focused manner.

Benefits:

BPR offers a competitive compensation package consisting of top pay based on qualifications and experience with incentive opportunities tied to personal developmental goals. We offer a generous paid time off policy which combines vacation and sick leave. Our health benefit package includes major medical, dental, vision, life, long-term disability insurances, a flexible spending account option and company sponsored 401k plan.

Desired Qualifications:

- Bachelor's degree in civil engineering or architectural engineering.
- Completion of coursework in Timber Design, in addition to core civil engineering courses such as Concrete Design and Steel Design.
- Exceptional verbal and written communication skills.
- Prior work experience or internships in plan checking or design is preferred but not required.
- Demonstrated passion for ongoing learning and development in the engineering profession.

Certification Requirements:

- Engineer-in-Training (EIT) certificate is **required**.

Compensation:

BPR Consulting Group offers competitive wages and has strong benefit offerings.

Salary range \$65,000-\$75,000 based on experience and qualifications.

Equal Opportunity Employer:

BPR Consulting Group is an Equal Opportunity Employer and prohibits unlawful discrimination based on race, religion, creed, national origin, ancestry, disability, legally protected medical condition, gender identity, age, military or veteran status, sexual orientation, or any other basis protected by federal law. Individuals with qualified disabilities who need reasonable accommodation during the selection process must specify the accommodation needed, in writing, for the application and/or interview phase.

How To Apply:

If you're interested in working for BPR Consulting Group, please submit your current resume and letter of interest to Careers@bpr-grp.com. No phone calls please.
